<b>1. Administering State Agency</b> <u>Division of Oil, Gas and Mining</u>	<b>2. Approximate date project will start:</b> <u>Expanding an existing small mining operation (&lt;5 acres), to a large mining operation.</u>
<b>3. Areawide clearinghouse(s) receiving state action:</b> (to be sent out by agency in block 1) <u>Six County Association of Governments</u> <u>Russell Cowley, Director</u> <u>P.O. Box 820</u> <u>250 North Main</u> <u>Richfield, UT 84701</u>	
<b>4. Type of action:</b> / / Lease / <input checked="" type="checkbox"/> / Permit / / License / / Land Acquisition / / Land Sale / / Land Exchange / / Other _____	
<b>5. Title of proposed action:</b> <u>Tejon Quarries, Rocanville Stone, M/027/087</u>	
<b>6. Description:</b> <u><b>During Operations:</b> This is an open pit operation. Limestone will be mined from the highwall faces and floor of the open pits(quarries). An excavator or front end loader will be used to pick up and move stone from the quarry floor to a work area, where it will be spread out in thin layers away from the quarry highwall face. Excavators, front end loaders, and/or dozers will be used in the operation. Palletized stone will be transported from the site on flatbed trucks. Quarry access roads and waste dumps will be constructed with safety berms as required by MSHA. Blasting will be in accordance with MSHA regulations. Quarry highwalls will be bermed as needed to prevent accidental vehicle or equipment travel.</u>  <u><b>After Operations:</b> Concurrent reclamation will not be practical for these quarries as access is important. No areas will be abandoned until the operator has quarried all of the salable stone which is profitable to produce. The land will be restored so it is suitable for wildlife habitat. Highwalls will be reduced in slope and if any pits are developed they will be partially backfilled with waste material. Bench floors will be ripped prior to placement of waste to allow for better drainage. Waste dumps will be reduced to 3 horizontal : 1 vertical (3h:1v). If any portions of the waste dumps have been compacted, they will be ripped prior to placement of the plant growth material. The overall pit slope will be reduced to less than 45 degrees. Pit areas will be covered with plant growth material (subsoil, decomposed limestone, topsoil mix). Surfaces will be left in a roughened condition to allow water to seep into the surface, and then planted with the approved seed mixture. Areas to be revegetated will be broadcast seeded in October or early November. The operator will plan to stockpile enough plant growth material to cover the site with 12 inches of plant growth material.</u>	

**7. Land affected (site location map required) (indicate county)** - include UTM coordinates where possible  
S1/2 of NW1/4, Section 29; S1/2 of NE1/4, Section 30; W1/2 of SE1/4, Section 30; and NE1/4 of SE1/4 of  
Section 30, Township 18 South, Range 13 West

**8. Jordan River Natural Areas Forum review - If the proposed action affects lands within the Jordan River Natural Areas Corridor.** (to be sent out by agency in block 1). (see Instructions II below).  
N/A

**9. Has the local government(s) been contacted?** Yes **If yes,**  
**a. How was contact made?** Via the public notice  
**b. Who was contacted?** Leon Smith, Planning and Zoning, Millard County  
**c. What was the response?**  
**d. If no response, how is the local government(s) likely to be impacted?** Increased economy in the county.

**10. Possible significant impacts likely to occur:** None

**11. Name and phone of district representative from your agency near project site, if applicable:**  
N/A

**12. For further information, contact:**  
Tom Munson, Senior Reclamation Hydrologist  
**Phone:** (801) 538-5321

**13. Signature and title of authorized officer**  
Daron G. Haddock  
**Date:** 3/23/05 Permit Supervisor

## **INSTRUCTIONS**

I. Whenever a State agency proposes or is administratively responsible for an action not exempted, it shall complete a State Action form and forward one copy to the Governor's Office of Planning and Budget and the effected areawide clearinghouse(s). All State Actions reviewed by the Resource Development Coordinating Committee (RDCC) within 30 days of receipt will forward all comments and recommendations within the 30-day review period to the initiating State agency. State Agencies may request an extension to the 30-day review period, if additional information is needed.

Questions encountered with the areawide clearinghouse review should be directed to the areawide clearinghouse. The Governor's Office of Planning and Budget will wait for the affected areawide clearinghouse(s) to complete their review before issuing a final clearance to the originator on this STATE ACTION.

II. If the proposed action affects lands within the Jordan River Natural Conservation Corridor (see Error! Not a valid link.), a copy of this completed form must also be submitted to:

Jordan River Natural Areas Forum  
C/O State and Local Planning  
Governor's Office of Planning and Budget  
116 State Capitol  
Salt Lake City, UT 84114

Questions regarding JRNACC or JRNAF should be directed to 538-1027.
